

CAD/Revit Technologist

Engineering Link
Toronto, ON

Engineering Link is growing its team.

We are looking for a **CAD/Revit Technologist** to join our structural drafting department. This role is exciting, diverse, and rewarding.

This is a perfect opportunity for an individual looking to build their career with a growing building envelope and structural engineering firm in downtown Toronto.

The ideal candidate is energetic, self-motivated, and enjoys working in a fast-paced environment. We are looking for someone who has a strong AutoCAD/Revit technical background and pays attention to detail on every aspect of project delivery.

Experience supporting a Structural engineering consulting firm is critical to the role.

About Engineering Link: Engineering Link is a leader in building envelope and structural engineering, specializing in sustainable design, restoration, and new construction projects. We work closely with our clients to develop innovative solutions that meet the highest standards in the industry. Join us as we continue to strengthen the built environment together.

What we are looking for in the ideal candidate:

Skills:

- Adaptable: can pivot to meet project needs and is able to focus on multiple projects at one time.
- Entrepreneurial: ambitious and delivers quality work.
- Proactive: takes initiative, analytical, innovative, and is a natural problem solver.
- Team-player: builds positive relationships with colleagues.
- Excellent communication skills both verbal and written; including technical writing.
- A motivated self-starter with a demonstrated ability to work independently, as well as, within a team environment.

Responsibilities:

- Prepare Revit and AutoCAD documents, project files, and models for the firm.
- Assist project teams with Revit modelling requirements, content creation, and coordination efforts.
- Produce Revit Families according to project requirements.
- Able to maintain standards and library of Revit families/objects.
- Able to run clash detection in Revit.
- Perform technical clerical duties for the Revit/AutoCAD team.
- Participate in the development and maintenance of technical documents such as specifications, typical details, design aids, and the like.
- Accept responsibility for consistency, accuracy, and quality before presenting to the project team (internal and external).
- Accept responsibility for delivering work within assigned project deadlines and budgets.

**Qualifications:**

- Diploma or degree in Architectural Technology, or post-secondary education with Revit/AutoCAD, or equivalent work-related experience.
- >3 years' Revit experience with in-depth working knowledge of current Revit versions.
- Proficient in AutoCAD design 2D/3D (AutoCAD and Revit).
- Experience in a Revit/AutoCAD role with an engineering consulting, architecture, or relevant industry is critical.

What We Offer:

- Competitive salary and benefits package.
- Opportunities for professional growth and development.
- A collaborative and dynamic work environment.
- Hybrid work schedule, with Work from Home (WFH) and in-office days arranged based on team and project needs.

A resume is required when applying.
