

Revit Technologist

Engineering Link
Toronto, ON

Engineering Link is growing its team.

We are looking for a **Revit Technologist** to join our structural drafting department. This role is exciting, diverse, and rewarding.

This is a perfect opportunity for an individual looking to build their career with a growing building envelope and structural engineering firm in downtown Toronto.

The ideal candidate is energetic, self-motivated, and enjoys working in a fast-paced environment. We are looking for someone who has a strong Revit/AutoCAD technical background and pays attention to detail on every aspect of project delivery.

Engineering Link offers an open, collaborative work environment and is involved in a variety of commercial, institutional, recreational, and residential projects across Canada. Engineering Link is focused on offering building envelope and structural engineering services as they relate to the science of the built environment.

What we are looking for in the ideal candidate:

Skills

- Adaptable: can pivot to meet project needs and is able to focus on multiple projects at one time.
- Entrepreneurial: ambitious and delivers quality work.
- Proactive: takes initiative, analytical, innovative, and is a natural problem solver.
- Team-player: builds positive relationships with colleagues.
- Excellent communication skills both verbal and written; including technical writing.
- A motivated self-starter with a demonstrated ability to work independently, as well as, within a team environment.

Responsibilities

- Prepare Revit and AutoCAD documents, project files, and models for the firm.
- Assist project teams with Revit modelling requirements, content creation, and coordination efforts.
- Produce Revit Families according to project requirements.
- Able to maintain standards and library of Revit families/objects.
- Able to run clash detection in Revit.
- Perform technical clerical duties for the Revit/AutoCAD team.
- Participate in the development and maintenance of technical documents such as specifications, typical details, design aids, and the like.
- Accept responsibility for consistency, accuracy, and quality before presenting to the project team (internal and external).
- Accept responsibility for delivering work within assigned project deadlines and budgets.

**Qualifications**

- Diploma or degree in Architectural Technology, or post-secondary education with Revit/AutoCAD, or equivalent work-related experience.
- >2 years' Revit experience with in-depth working knowledge of current Revit versions.
- Proficient in AutoCAD design 2D/3D (AutoCAD and Revit).
- Experience in a Revit/AutoCAD role with an engineering consulting, architecture, or relevant industry is desired.

A resume is required when applying.

Engineering Link is committed to promoting diversity and employment equity.

Applicants requiring accommodation at any stage in the recruitment process can contact Human Resources.

We thank you for your interest in our firm. Please note that only those candidates selected for the next step in the recruitment process will be contacted by Human Resources.
